The what if is now, we are all in a state of disbelief and panic. PANDEMIC's are scary for all of us. We are secluded and it seems like everywhere we turn there is bad news being shared. We are ALL worried about ourselves and the ones we love.

Now think about our community and to those that are our most vulnerable. Maybe they don't have the means to get out of their home to get medication or essential personal care products. Maybe they are simply struggling with being alone in this time of self-isolation?

You can make a difference. You can help. You can make a difference! We are positioning to launch the **#letsmakeadifference** campaign.

Helping Hands Caregivers is a homecare company serving NE Wisconsin that provides personal care, supportive home care, respite, representative payee and Personal Emergency Response Systems to our most vulnerable citizens. We see the issues that our clients and family members of clients have every day to make end meet. Now more than ever we hear their concern and we are also concerned for them. They are faced with questions like.

- How do I get to the grocery store to buy groceries?
- I have run out of cleaning supplies and can't get anymore?
- I have no more medical gloves or masks where do I go to get them?
- I need my medication and don't have the means to pick it up?
- My family helps to support me, and they don't have the money right now to help. How am I going to pay for my food?

Helping Hands Caregivers is ready to act and to assist where we can those folks that don't have the means to help themselves in this time of great need.

Our charitable partner Compassionate Home Health Care is kicking into high gear. They are activating their Community that Cares fundraiser and will be partnering with organizations across NE Wisconsin to help to serve our most vulnerable populations. They like us are worried about our community and are ready, willing and able to take up this great cause. The **#letsmakeadifference** campaign is mobilizing and the needs will be heavy.

Compassionate Home Health Care's Annual Giving Campaign last December provided support to over 1000 families! With their strong partnerships with area businesses and our connections to the resource organizations throughout NE Wisconsin we are hopeful that we can provide valuable support to our most vulnerable in these unprecedented times.

We are hopeful that you will step-up to help too! Visit: <https://www.chhcinc.org/lets-make-a-difference/>
